## **PROJECT NARRATIVE OF THE ARIZONA FINE ART EXPO**

*The purpose of this application is to obtain a use permit for the annual Arizona Fine Art Expo located at the southeast corner of Pinnacle Peak and Scottsdale Road.*

*The Arizona Fine Art EXPO was at this same location in 2006 and at Williams and Scottsdale Rd. in 2005. I believe we are an asset to the city of Scottsdale and with substantial sales in 2005 and 2006 we add to Scottsdale's economic base. We look forward to a continuing this relationship with the city. The Arizona Fine Art EXPO is sponsored by Thunderbird Artists who have been doing quality juried art festivals for the last 25 years.*

*The Arizona Fine Art EXPO is a ten week juried fine art show that attracts artists and patrons throughout the United States and abroad. Approximately 115 artists can be found working in their studios painting in oil or acrylic, sketching in pen and ink, pastels and pencil, sculpting clay, carving with mixed media on canvas and sculptures and designing exquisite jewelry. There is more action to see in the outdoor working cabanas such as steel and copper welding, alabaster carving, stone etching, patina finishing, plein air painting and more! Watch a master glass blower, take a gather of glass and majestically turn it into a spectacular sculpture or glassware. Stroll through the sculpture garden looking at over 100 sculptures. There's even a putting green for the avid golfer.*

*The 44,146 sq ft. tented area is totally carpeted in a dark gray with black panels for each of the artist studios. We feel this gives uniformity and the look of a large art gallery. The artists are very interactive with the patrons making a day at the Expo a very memorable experience. Lunch is served daily in the Café de' Expo. Enjoy a crisp salad or a delicious grilled burger cooked to order.*
